✈ PROJECTS

Piety Laundry App
3 months
Laundry is integral part of our daily life, it can't be skipped. The Piety laundry mobile App concept helps us to wash dry-clean and iron with pick up &delivery services for every clothes. The Piety laundry app lets users to book laundry services as per their comfort.
Flutter software development kit used to develop the app

For front end dart language and for backend firestore has been used.

CutSquare App

Currently working on this project

Just like other services, it must be easy to book appointment for saloon too. Therefore, cutSquare helps with booking saloon, providing all the services related to saloon like facial, skin care, haircut etc

Ui is done in flutter sdk, front end in Dart language and for backend we have used cloud firestore
